EXECUTIVE PROFILE

Interim Manager, Senior Management Consultant and CEO with over 40 years of leadership experience across the Electronics, Information Systems, and Telecommunications industries. Reporting directly to global executives (including Chase Manhattan Bank, NY) and managing capital expenditure budgets up to \$450K while enforcing strict corporate governance. Expert in aligning deep-tech infrastructure, wide-area network architecture, and complex engineering operations with corporate business strategies and policies. Seeking to deploy executive agility and technical mastery to drive high-impact transformation projects.

CORE COMPETENCIES

- Corporate IT Governance
- WAN Architecture & Nodes
- P&L / Technical Budgeting
- Multi-Tier System Integration
- Cross-Functional Leadership
- Executive Account Protection

LANGUAGES

PROFESSIONAL EXPERIENCE

Interim Manager / Consultor Ejecutivo Senior

Nov 2022 - Presente

Independent Corporate Advisor | Asturias, Spain

Engaged in independent, self-directed executive research, technical upskilling, and legacy infrastructure maintenance to adapt 46 years of international expertise to the modern European digital ecosystem. Active purely in a non-commercial, exploratory capacity.

Chief Executive Officer (CEO)

1990 - 2022

Astur Sistemas | Caracas, Venezuela

Directed all business operations, strategic expansion, and multi-sector solution delivery for over 31 years. Pioneered advanced telecommunications, software engineering, and corporate information systems projects for cross-industry clients. Managed engineering teams, financial operations, and vendor relations.

Telecommunications and Systems Manager and Assistant Treasurer

1986 - 1991

The Chase Manhattan Bank | Caracas, Venezuela

Directed the design, implementation, and infrastructure management of Chase's local Wide Area Network (WAN) node, information systems, and corporate telecommunications. Managed a total capital expenditure (CapEx) budget of approximately \$450K, reporting directly to two Regional Vice Presidents at Chase Headquarters in New York and one Executive VP in the local branch, in strict compliance with corporate governance and global policies.

- Maintain continuous technical oversight of the high-availability international data link between Chase NY and Chase Caracas.

- Collaborated directly on an international data interconnection project joining Chase New York's core banking networks with Venezuela's leading financial institution.

- Designed the local area network (LAN) architecture. Provided advanced system support for 45 users.

Technical Services Representative

1984 - 1985

The Chase Manhattan Bank | Caracas, Venezuela

Designed and administered corporate telecommunications infrastructures and automated data systems. Launched and managed the deployment of pioneering Electronic Banking (Banca Electronica) services for Tier-1 commercial banks, oil companies, and local corporations.

Field Service Engineer

1980 - 1984

Datatec C.A. & Bioelectronica Medica C.A.

Executed field engineering, system deployments, and mission-critical telecommunications maintenance for enterprise financial networks, petroleum companies, and complex clinical hardware (Computed Tomography Delta 50, Ultrasound, and cardiac monitoring medical equipment). Trained at Ohio-Nuclear Inc. (USA) in advanced radiological calibration and maintenance.

Research & Teaching Assistant

1979 - 1980

Universidad Simon Bolivar | Caracas, Venezuela

Programmed complex numerical solutions and computational models to solve sophisticated mathematical systems involving complex numbers for departmental research initiatives. Utilized the university's central mainframe computing infrastructure, operating algorithms on the high-performance Digital Equipment Corporation PDP-10 platform. Delivered classroom lectures and practical exercise sessions in Signal Analysis, Applied Electromagnetics, and Wave Propagation.

CONTINUOUS EDUCATION & CREDENTIALS

Advanced Programs & Technical Certifications

1980 - 2026

Continuous Professional Development

- **Executive Training:** Project Management (The Chase Development Center, NY), Banking Automation (IBM), Electronic Banking Products Seminars (Chase Miami & NY). Systems.

- **Engineering:** Expert Systems (Applied AI), C Language, LAN Architecture, Data Transmission Protocol Seminars (HP), Communication Management Systems Products (Racal Milgo, Florida).

- **Corporate Leadership:** Designed and facilitated specialized corporate workshops for internal staff, including Structured Cabling (TIA/EIA 568A Standard) and Network Cabling / Hardware Certification Procedures.

- **Digital Management & FinTech Ecosystems:** Proficient in orchestrating corporate operations through the deployment and administration of CMS, CRM, LMS, and Agile Project Management Platforms (Kanban). Advanced integration of E-commerce infrastructures, Payment Servers, Administrative Systems, and Cryptocurrencies (Bitcoin framework).
